Title: Architecture Definitions Author: Ruth Malan and Dana Bredemeyer Subject: Software Architecture, Enterprise Architecture, Technical Arch Keywords

Architecture Definitions - Bredemeyer

Architecture is both the process and the product of planning, designing, and constructing buildings or any other structures. Architectural works, in the material form of buildings, are often perceived as cultural symbols and as works of art.

Modern architecture, or modernist architecture was based upon new and innovative technologies of construction, particularly the use of glass, steel and reinforced concrete; the idea that form should follow

function; an embrace of minimalism; and a rejection of ornament. It emerged in the first half of the 20th century and became dominant after ...
