Armies and State-building in the Modern Middle East

State-building is thus the process by which the state not only grows in economic productivity and government coercion, but also in political and institutional power.

State Formation Processes in Rentier States

The Soldier and the Changing State is the first book to systematically explore, on a global scale, civil-military relations in democratizing and changing states. Looking at how armies supportive of democracy are built, Zoltan Barany argues that the military is the most important institution that
